

## **Pool Policy**

Adopted by the board on 1/16/2020

The maintenance department will be responsible for checking the expected outside air temperature for the pool to be open. Maintenance will check the projected temperature at 8:00 A.M. If the projected temperature is to be 65 degrees by 12:00 P.M. the pool will be uncovered, cleaned and opened. If the projected temperature is not 65 degrees maintenance will check the projected temperature again at 11:00 A.M. for what the expected temperature is supposed to be at 12:00 P.M. in Holiday, FL. If it shows that it will be 65 degrees out at 12:00 P.M. maintenance will go over and uncover and clean the pool for it to be open at 12:00 P.M. If the projected temperature is below 65 degrees the pool will remain closed the rest of the day.

The scheduled volunteer to open the pool on the weekends or holidays will follow this policy as well.
